

Community Research Initiative *of New England*

FACT SHEET 2008 CRI Circle of Friends Florida Party

- WHAT:** 2008 CRI Circle of Friends Florida Party
Includes cocktails, hors d'oeuvres, and entertainment
- WHEN:** **Saturday March 15, 2008**
7:00PM-9:00 PM
- WHERE:** A beautifully renovated Miami Beach private home
- WHY:** This fundraiser is an opportunity to support the leading-edge research conducted by Community Research Initiative of New England (CRI). Working to improve the lives of people living with HIV/AIDS for almost 20 years, Boston-based **CRI** has participated in some of the most promising HIV medication research being conducted across the globe. Through its outreach efforts, **CRI** provides the latest critical treatment information to people living with HIV/AIDS, including women, people of color, and others who have been traditionally underserved.
- Led by Dr. Cal Cohen, CRI's internationally known Director of Research, **CRI** is now collaborating on groundbreaking studies with Dr. Edwin DeJesus of the Orlando Immunology Center, Dr. Clifford Kinder of Miami's Kinder Medical Group, and Dr. Gerald Pierone of Vero Beach's Treasure Chest Infectious Disease Consultants.
- What CRI discovers from the advanced clinical research it conducts in Massachusetts, Florida and other sites across the US has the potential to help those living with HIV all over the world.
- ATTENDEES:** Friends of CRI, sponsors, HIV clinicians, those living with HIV
- SPONSORSHIPS:**
- | | |
|-----------------------------------|----------|
| Platinum Circle of Friends | \$10,000 |
| Gold Circle of Friends | \$ 5,000 |
| Silver Circle of Friends | \$ 2,500 |
| Benefactor | \$ 1,000 |
- TICKETS:** Minimum donation \$100. Space is limited. To make a reservation, please contact Erin Molloy at 617.502.1726 or email her at emolloy@crine.org.
- PROCEEDS:** CRI's fundraising goal for this event is \$50,000. We cannot accomplish any of this alone. Your support can help us to meet this goal and continue our critical research to improve the lives of those living with HIV.
